

PsorX

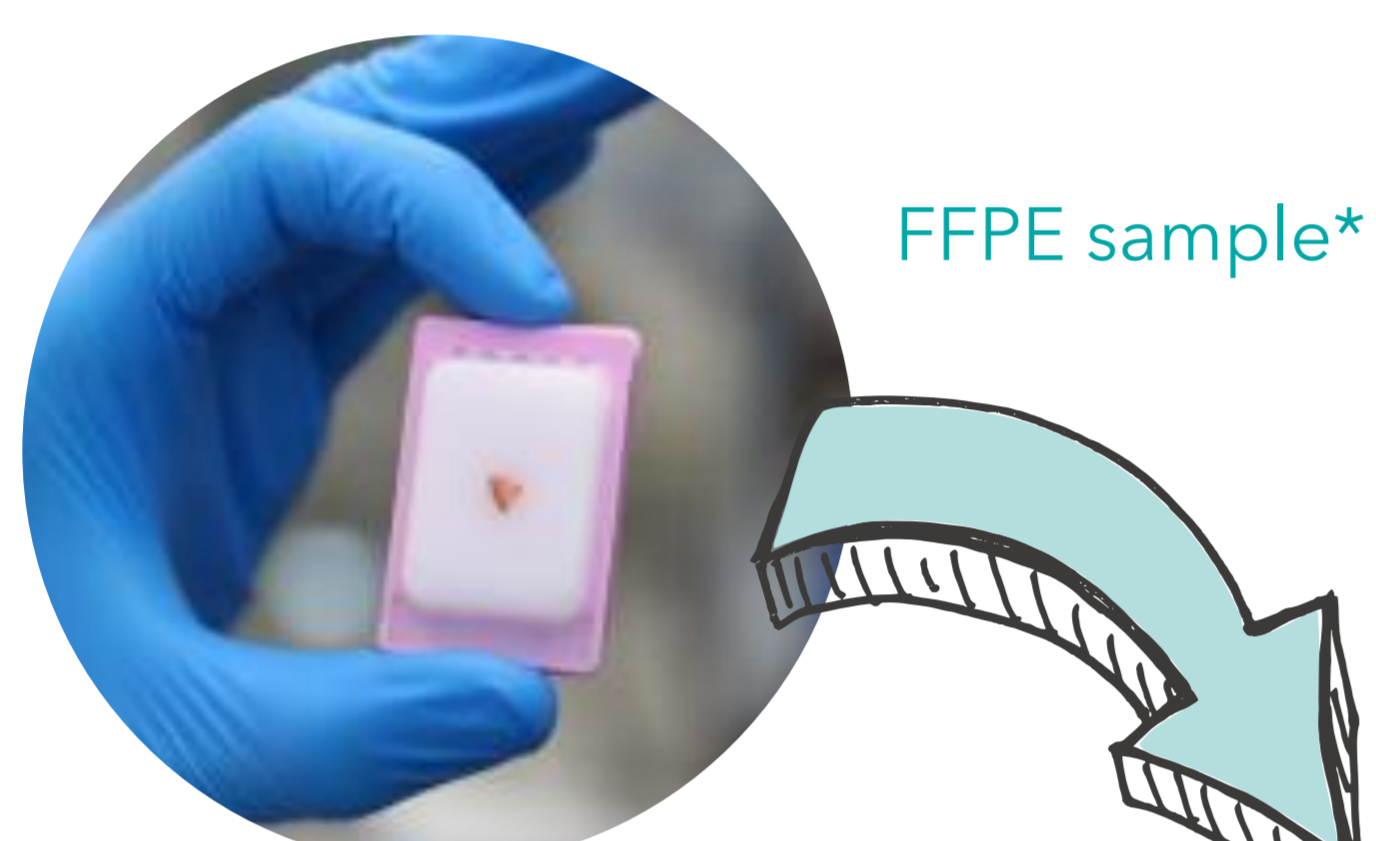

DERMAGNOSTIX

The first molecular test for psoriasis and eczema

because modern therapies require modern diagnostics

PsorX-LabDisk (CE-IVD)

FFPE sample*

PsorX-LabDisk 2.0 (under development)

Non-invasive tape strip

Digital answer

1 Load LabDisk with sample

2 Insert LabDisk into LabDisk-Analyzer

3 Fully automated analysis

4 Accurate result** within 2h

* = FFPE (Formalin-fixed paraffin-embedded tissue) block, histological tissue sample

**Probability of a sample to be assigned to the molecular signature of psoriasis versus eczema
