
LEGIT.HEALTH

For Next-Generation Dermatologists

Diagnosis support and automatic measurement of the **severity of skin conditions**.

Certified as medical device with clinical artificial intelligence.

ISO 13485 :2016 Medical Devices Quality Management

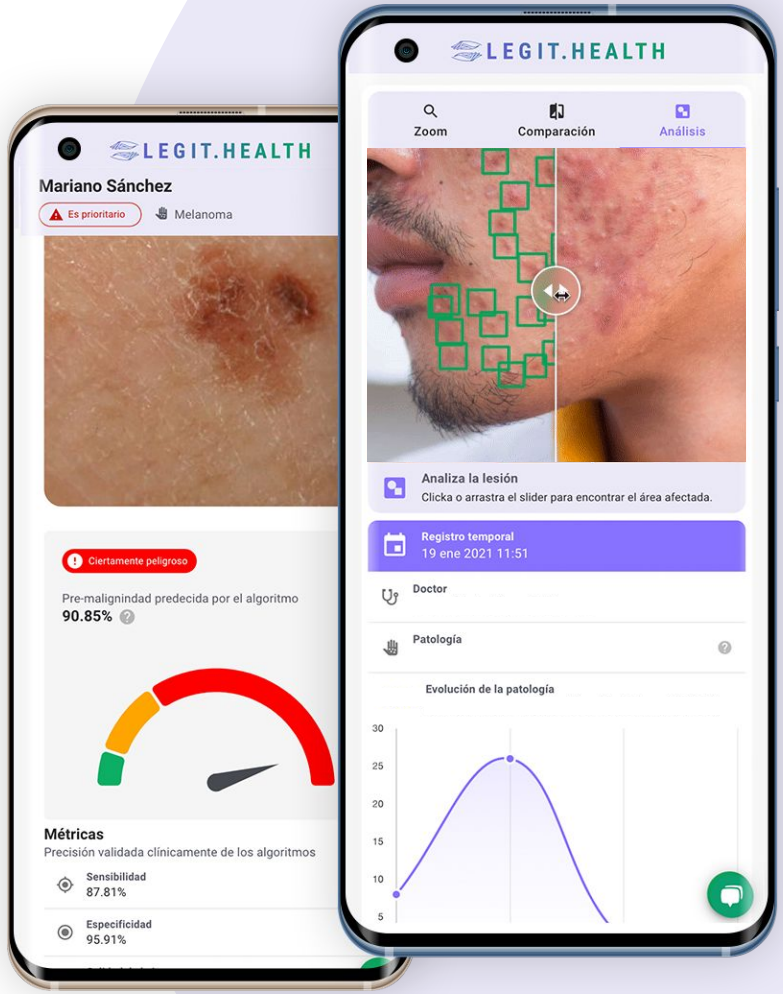
UNE 62304 2007/A1 Medical device Software lifecycle processes.

CE 93/42/EEC Medical Devices Regulation

GDPR EU 2016/679 General Data Protection Regulation

HIPAA EU 2016/679 Health Insurance Portability and Accountability Act

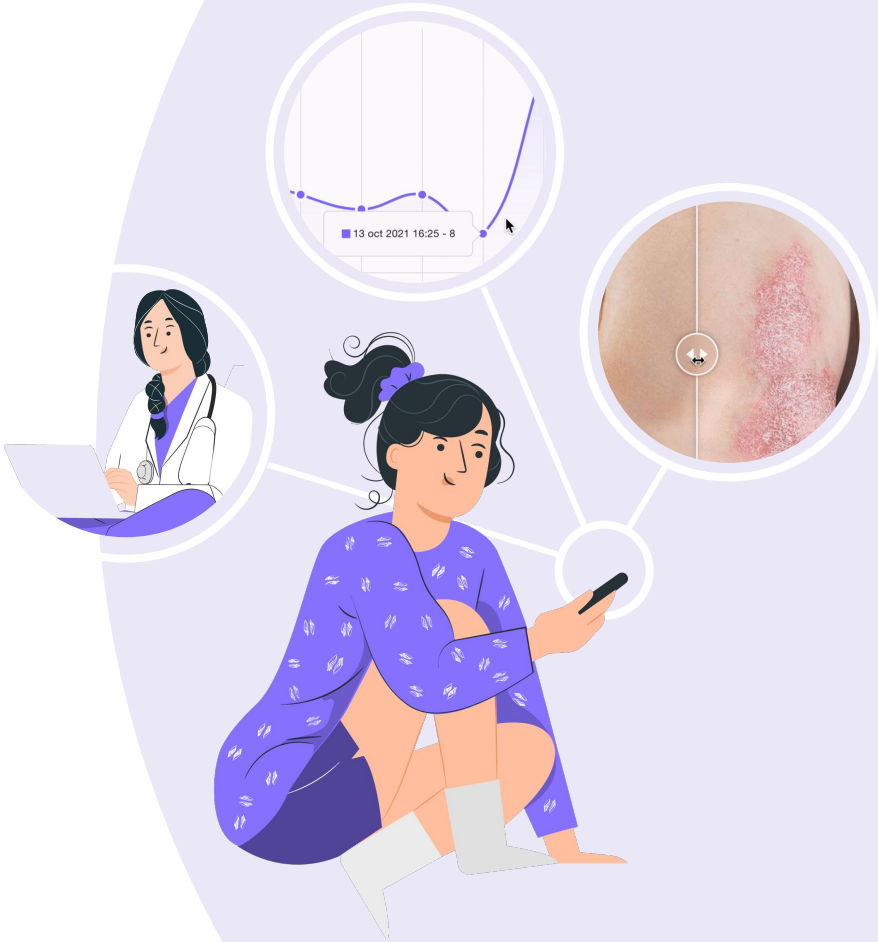
LEGIT.HEALTH is the tool **co-designed** with leading **dermatologists** and **clinically validated** to ensure its fit with clinical practice and ease of use.



LEGIT.HEALTH

We are helping doctors help their patients

Automatically provide patients with the **information confirmed by their doctor** so that they can **actively monitor** their pathologies, feeling more supported and **increasing adherence to treatment**



Automatic measurement

Automatically measures severity

Relieve doctors and patients from the **tedious manual calculation of scoring systems** and practice a more objective evidence-based dermatology.

Automatic measurement

Automatically measures severity

The tool **automatically fills-in most of the medical grading systems**, such as: PASI, SCORAD, UAS, GAGS, and many more dermatology scoring systems.

Diagnostic support

More than 232 conditions

With LEGIT.HEALTH, the medical team diagnoses and follow-ups remotely and automatically:

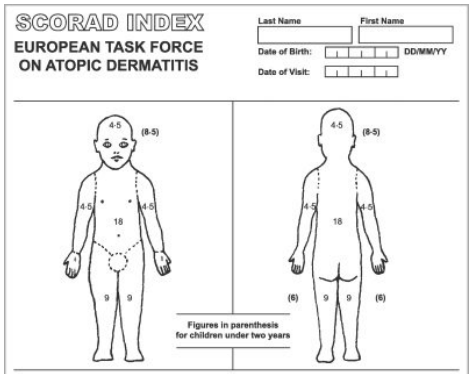
- ❏ **Chronic** conditions
- ❏ **Malignant** conditions
- ❏ Post-op and chronic **wounds** (ulcers)

The vision

Automatic scoring systems are the current state-of-the-art

1993 → 2015 → 2020

Pen and paper



SCORAD INDEX

EUROPEAN TASK FORCE ON ATOPIC DERMATITIS

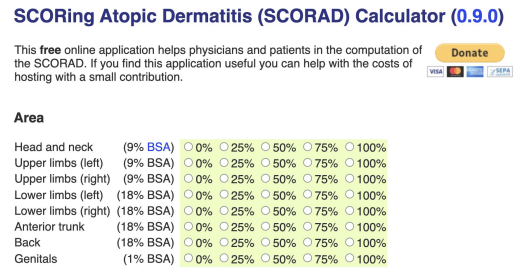
Last Name First Name

Date of Birth: DD/MM/YY

Date of Visit:

Figures in parenthesis for children under two years

Digital calculator



SCORing Atopic Dermatitis (SCORAD) Calculator (0.9.0)

This **free** online application helps physicians and patients in the computation of the SCORAD. If you find this application useful you can help with the costs of hosting with a small contribution.

What do the experts say?

Meet our scientific board

Dr. Ricardo Ruiz

> Legit.Health's technology is a necessary breakthrough in the world of dermatology. It is not only the best tele-dermatology tool, but also a very useful complement to the face-to-face consultation.

Dr. Fernando Alfageme

> In the specific case of Hidradenitis Suppurativa, Legit.Health's algorithm helps my entire service to diagnose with greater speed and reliability, even if they are not experts in the pathology.

Dr. Sergio Vañó

Dr. Ramón Grimalt

Dr. Pedro Rodríguez

Dr. Carlos Chiesa

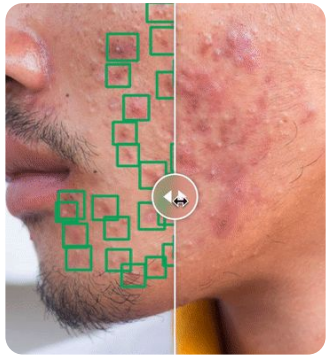
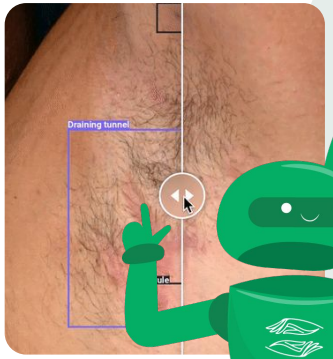
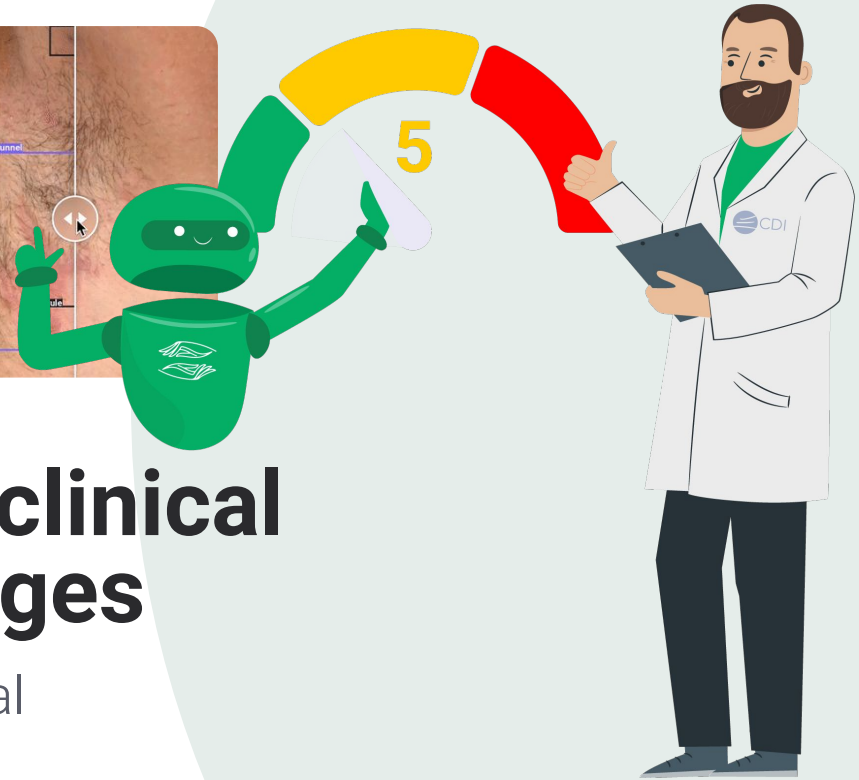
LEGIT.HEALTH

Dermatology Clinical Trials powered by Computer Vision

LEGIT.HEALTH





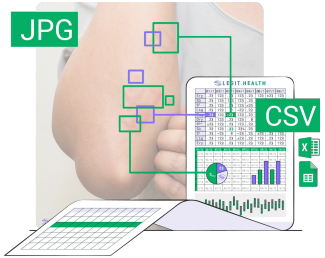


Extract augmented clinical endpoints from images

Automates the extraction of clinical endpoints in clinical trials.

Next-Generation Clinical Trials

Features or the solution



Pixel to CSV

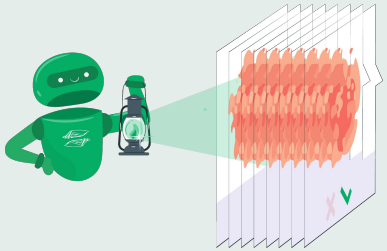
Conversion of pixel to data

Extracts **clinical data** from images and exports it to readable formats such as **csv, xls or json.**

Severity measurement

Automatically scores the degree of involvement

Artificial Intelligence analyses the image and **fills in the PASI, SCORAD, etc. questionnaires automatically.**



Quality control

Ensures image quality

Artificial Intelligence analyses the **quality and clinical utility** of the images to ensure their quality.
